Race of Death Row Prisoners and Death Row Prisoners by State Source: The Legal Defense Fund, “Death Row USA” (April 1, 2022). The combined state totals are slightly higher than the reported national total. That is because a few prisoners are sentenced to death in more than one state. Those prisoners are included in each state’s totals, but only once in the national total.
DEATH SENTENCING

295 death sentences were imposed in the U.S. in 1998. The number of death sentences per year has dropped dramatically since then.

MENTAL DISABILITIES

- Intellectual Disabilities: In 2002, the Supreme Court held in Atkins v. Virginia that it is unconstitutional to execute defendants with 'mental retardation.'
- Mental Illness: The American Psychiatric Association, the American Psychological Association, the National Alliance for the Mentally Ill, and the American Bar Association have endorsed resolutions calling for an exemption of the severely mentally ill.

DETERRENCE

A report by the National Research Council, titled Deterrence and the Death Penalty, stated that studies claiming that the death penalty has a deterrent effect on murder rates are "fundamentally flawed" and should not be used when making policy decisions (2012).

A DPIC study of 30 years of FBI Uniform Crime Report homicide data found that the South has consistently had by far the highest murder rate. The South accounts for more than 80% of executions. The Northeast, which has fewer than 0.5% of all executions, has consistently had the lowest murder rate.

According to a survey of the former and present presidents of the country's top academic criminological societies, 88% of these experts rejected the notion that the death penalty acts as a deterrent to murder.

EXECUTIONS SINCE 1976 BY METHOD USED

- 1378 Lethal Injection
- 163 Electrocution
- 11 Gas Chamber
- 3 Hanging
- 3 Firing Squad

30 states plus the US government use lethal injection as their primary method. Some states utilizing lethal injection have other methods available as backups. New Hampshire abolished the death penalty in 2019, but the law was not retroactive, leaving one prisoner on death row and the lethal injection protocol intact.

JUVENILES

- In 2005, the Supreme Court in Roper v. Simmons struck down the death penalty for juveniles. Since 1976, 22 defendants had been executed for offenses committed as juveniles.

WOMEN

- There were 51 women on death row as of October 1, 2021. This constitutes 2.08% of the total death row population. (The Legal Defense Fund, October 1, 2021). 17 women have been executed since 1976.
PUBLIC OPINION AND THE DEATH PENALTY

A 2009 poll commissioned by DPIC found police chiefs ranked the death penalty last among ways to reduce violent crime. The police chiefs also considered the death penalty the least efficient use of taxpayers' money.

What Interferes with Effective Law Enforcement?

- Lack of law enforcement resource (20%)
- Drug/Alcohol abuse (20%)
- Family problems/child abuse (14%)
- Lack of programs for mentally ill (12%)
- Crowded courts (7%)
- Ineffective prosecution (6%)
- Too many guns (5%)
- Gangs (3%)
- Insufficient use of the death penalty (2%)

- A 2009 poll commissioned by DPIC found police chiefs ranked the death penalty last among ways to reduce violent crime. The police chiefs also considered the death penalty the least efficient use of taxpayers’ money.

Support for Alternatives to the Death Penalty

- A 2010 poll by Lake Research Partners found that a clear majority of voters (61%) would choose a punishment other than the death penalty for murder.

FINANCIAL FACTS ABOUT THE DEATH PENALTY

- Oklahoma capital cases cost, on average, 3.2 times more than non-capital cases. (Study prepared by Peter A. Collins, Matthew J. Hickman, and Robert C. Boruchowitz, with research support by Alexa D. O’Brien, for the Oklahoma Death Penalty Review Commission, 2017.)
- Defense costs for death penalty trials in Kansas averaged about $400,000 per case, compared to $100,000 per case when the death penalty was not sought. (Kansas Judicial Council, 2014.)
- A study in California revealed that the cost of the death penalty in the state has been over $4 billion since 1978. Study considered pre-trial and trial costs, costs of automatic appeals and state habeas corpus petitions, costs of federal habeas corpus appeals, and costs of incarceration on death row. (Alarcon & Mitchell, 2011.)
- Enforcing the death penalty costs Florida $51 million a year above what it would cost to punish all first-degree murderers with life in prison without parole. Based on the 44 executions Florida had carried out since 1976, that amounts to a cost of $24 million for each execution. (Palm Beach Post, January 4, 2000.)
- The most comprehensive study in the country found that the death penalty costs North Carolina $2.16 million per execution over the costs of sentencing murderers to life imprisonment. The majority of those costs occur at the trial level. (Duke University, May 1993.)
- In Texas, a death penalty case costs an average of $2.3 million, about three times the cost of imprisoning someone in a single cell at the highest security level for 40 years. (Dallas Morning News, March 8, 1992.)
