NUMBER OF EXECUTIONS SINCE 1976: 1540

- White: 857
- Black: 527
- Hispanic: 129
- Other: 27

More than 75% of the murder victims in cases resulting in an execution were white, even though nationally only 50% of murder victims generally are white.
Persons Executed for Interracial Murders

Race of Death Row Prisoners and Death Row Prisoners by State Source: NAACP Legal Defense Fund, “Death Row USA” (April 1, 2021). The combined state totals are slightly higher than the reported national total. That is because a few prisoners are sentenced to death in more than one state. Those prisoners are included in each state’s totals, but only once in the national total.
EXECUTIONS BY STATE Since 1976

DEATH SENTENCING

295 death sentences were imposed in the U.S. in 1998. The number of death sentences per year has dropped dramatically since then.

MENTAL DISABILITIES

- **Intellectual Disabilities**: In 2002, the Supreme Court held in Atkins v. Virginia that it is unconstitutional to execute defendants with 'mental retardation.'
- **Mental Illness**: The American Psychiatric Association, the American Psychological Association, the National Alliance for the Mentally Ill, and the American Bar Association have endorsed resolutions calling for an exemption of the severely mentally ill.

DETERRENCE

**Do executions lower homicide rates?**

- A report by the National Research Council, titled Deterrence and the Death Penalty, stated that studies claiming that the death penalty has a deterrent effect on murder rates are “fundamentally flawed” and should not be used when making policy decisions (2012).
- A DPIC study of 30 years of FBI Uniform Crime Report homicide data found that the South has consistently had by far the highest murder rate. The South accounts for more than 80% of executions. The Northeast, which has fewer than 0.5% of all executions, has consistently had the lowest murder rate.
- According to a survey of the former and present presidents of the country's top academic criminological societies, 88% of these experts rejected the notion that the death penalty acts as a deterrent to murder.

**EXECUTIONS SINCE 1976 BY METHOD USED**

- **1360** Lethal Injection
- **163** Electrocution
- **11** Gas Chamber
- **3** Hanging
- **3** Firing Squad

30 states plus the US government use lethal injection as their primary method. Some states utilizing lethal injection have other methods available as backups. New Hampshire abolished the death penalty in 2019, but the law was not retroactive, leaving one prisoner on death row and the lethal injection protocol intact.

**EXECUTIONS BY REGION**

*Federal executions are listed in the region in which the crime was committed.

**JUVENILES**

- In 2005, the Supreme Court in Roper v. Simmons struck down the death penalty for juveniles. Since 1976, 22 defendants had been executed for offenses committed as juveniles.

**WOMEN**

- There were 51 women on death row as of October 1, 2020. This constitutes less than 2% of the total death row population. (NAACP Legal Defense Fund, October 1, 2020). 17 women have been executed since 1976.
PUBLIC OPINION AND THE DEATH PENALTY

A 2009 poll commissioned by DPIC found police chiefs ranked the death penalty last among ways to reduce violent crime. The police chiefs also considered the death penalty the least efficient use of taxpayers' money.

Lack of law enforcement resources
Drug/Alcohol abuse
Family problems/child abuse
Lack of programs for mentally ill
Crowded courts
Ineffective prosecution
Too many guns
Gangs
Insufficient use of the death penalty

The most comprehensive study in the country found that the death penalty costs North Carolina $2.16 million per execution over the costs of sentencing murderers to life imprisonment. The majority of those costs occur at the trial level. (Duke University, May 1993).

In Texas, a death penalty case costs an average of $2.3 million, about three times the cost of imprisoning someone in a single cell at the highest security level for 40 years. (Dallas Morning News, March 8, 1992).

The Death Penalty Information Center has available more extensive reports on a variety of issues, including:
